Professional Summary

Full Stack Web Developer with 5+ years of experience building and maintaining web and mobile applications. Experienced in **React, React Native, Angular, NestJS, Node.js, REST APIs, MySQL, and PostgreSQL**, with a strong focus on clean code, testing, scalability, and user experience. Experienced working with clients, translating requirements into technical solutions, and collaborating throughout the software development lifecycle. Hands-on experience using **AI-assisted development tools such as Codex, Claude Code, and OpenCode** to improve development workflows, explore solutions, and increase productivity.

Professional Experience

Full Stack Web Developer — Bee Loyal Card

Full-time · Remote

San José, Costa Rica · Mar 2024 – Present

- Develop scalable web and mobile applications using **React, Angular, and React Native**, creating reusable and responsive components.
- Build and maintain **backend services, RESTful APIs, and business logic using NestJS**, integrating applications with **MySQL and PostgreSQL**.
- Integrate frontend and mobile applications with backend services, databases, and external systems to deliver complete solutions.
- Implement **unit, integration, and end-to-end testing** using Jest, Cypress, and WebdriverIO, while improving application reliability and maintainability.
- Troubleshoot and optimize applications to improve **performance, scalability, stability, and user experience**.
- Collaborate with team members and stakeholders throughout the **software development lifecycle**, from requirements and development to testing and delivery.

Front End Developer — Freelance

Costa Rica · Sep 2023 – Feb 2024

- Developed custom web applications using **React, Angular, JavaScript, HTML, and CSS** based on client requirements.
- Worked directly with clients to understand business needs and translate them into practical technical solutions.
- Maintained and improved existing applications by implementing **bug fixes, security updates, and performance improvements**.

Web UI Developer — Globant

Costa Rica · Jul 2022 – Sep 2023

- Improved application quality and security by resolving **static analysis issues and vulnerabilities using Sonar**.
- Developed automated **unit tests with Jest and Testing Library**, achieving 80% test coverage.
- Designed and developed an internal **CV generation platform**, following company engineering standards.
- Delivered a technical presentation at **Tecnológico de Costa Rica** about building a career in web development.

Web Developer Analyst — Accenture

Costa Rica · Nov 2021 – Jul 2022

- Developed and tested web applications and managed content through **CMS platforms**.
- Built and maintained web interfaces following **UX/UI, accessibility, and web development standards**.
- Integrated middleware platforms to retrieve and update data according to functional requirements.

Front End Web Developer — Beta Tech

Costa Rica · Apr 2021 – Nov 2021

- Built and maintained websites and web applications for multiple clients.
- Translated client requirements into functional web interfaces and solutions.
